Descriptive Report
Topographic Sheet Vicinity of Cayucas Cal.

Scale 1 to 2500

ASSY. IN CHARGE (C)

This sheet was surveyed July 1916. The shore line in the immediate vicinity of Cayucas, was run with the plane table. Objects were cut in to be used as signals in the hydrography and several points in the street of the town were determined. These points and points determined in the triangulation, to locate points requested by the Bureau of Lighthouses, served to plot the plan of the town.

See descriptive report hydrographic sheet Vicinity of Cayucas, for points to be placed on the chart.

E. S. Atham

Chief of Party C & G Survey.

Top. 3624.
