ANDS

Summary to Accompany T-8464 and T-8465

The preliminary shoreline maps shown on the attached index were radial plotted and the detail delineated in 1943 and 1944 without field inspection of any kind, to furnish detail for small scale nautical charts and shoreline for hydrographic surveys.

Preliminary shoreline map T-8464 covers the south half of the Kupreanof Peninsula, Alaska Peninsula, Latitude $55^{\circ}-33'$ to $55^{\circ}-43'$ and Longitude $159^{\circ}-31'$ to $159^{\circ}-46'$; T-8465 covers the north half of the Kupreanof Peninsula, Alaska Peninsula, Latitude $55^{\circ}-43'$ to $55^{\circ}-55'$ and Longitude $159^{\circ}-26'$ to $159^{\circ}-43'$.

A continuous radial plot was laid for sheets T-8459 through T-8465, T-8468 and T-8469. It is not recommended that these sheets be used for large scale mapping without the usual field inspection.

Topographic maps T-8832 and T-8833 (1:20,000) Project CS-319, Alaska Peninsula, cover the area of T-8464 and supersede it in all details. Topographic maps T-8829, T-8831 and T-8832⁽¹⁹⁴⁸⁾ (1:20,000) Project CS-319, Alaska Peninsula, cover the area of T-8465 excepting the inland area bounded by Latitude $55^{\circ}-52'$ to $55^{\circ}-55'$ and Longitude $159^{\circ}-37'$ to $159^{\circ}-43'$, and supersede the common area in all details.

Data pertaining to T-8464 and T-8465 is filed as follows:

A. Division of Photogrammetry General Files

1. Acetate manuscript

B. Bureau Archives

1. A cloth backed lithographic print of the reviewed map at compilation's scale
2. Registered original descriptive report
