Descriptive Report and Review

Summary to Accompany T-8468 and T-8469

The preliminary shoreline maps shown on the attached index were radial plotted and the detail delineated in 1943 and 1944 without field inspection of any kind, to furnish detail for small scale nautical charts and shoreline for hydrographic surveys.

Preliminary shoreline map T-8468 covers the vicinity of Orzinski Bay, Alaska Peninsula, from latitude 55°-39' to 55°-51' and longitude 159°-59' to 160°-13', and T-8469 covers the area from Grub Gulch to Ramsey Bay, Alaska Peninsula, from latitude 55°-46' to 55°-56' and longitude 159°-43' to 159°-59'.

A continuous radial plot was laid for sheets T-8459 through T-8465, T-8468 and T-8469. It is not recommended that these sheets be used for large scale mapping without the usual field inspection.

^{a new}
Topographic map T-8331 (1:20,000), Project CS-319, Alaska Peninsula covers the shoreline of Stepovak Bay from longitude 159°-43' to 159°-50' and supersedes the detail shown in this area on T-8469.

Data pertaining to T-8468 and T-8469 is filed as follows:

A. Division of Photogrammetry general files:

1. Acetate manuscripts

B. Bureau Archives

1. A cloth backed lithographic print of the reviewed maps at compilation scale
2. Registered original descriptive reports.
