SUMMARY TO ACCOMPANY
DESCRIPTIVE REPORT T-11914

Shoreline manuscript T-11914 is one of forty-nine similar maps in this project and covers a part of the coastline of Maui Island. This was a Kelsh project in advance of hydrographic surveys in the area. The field operations preceding compilation included recovery and identification of horizontal control and field inspection. The Kelsh compilation was at 1:5,000 scale from 1:25,000 scale photography obtained 10 October 1960. A cronaflex positive showing shoreline, alongshore features and shoreline pass points was furnished for the preparation of the hydrographer's boat sheet along with 1:5,000 scale ratio prints for the location of hydro signals and for field edit purposes.

The compilation manuscript is a vinylite sheet 1 minute 52.5 seconds in latitude by 2 minutes 22.5 seconds in longitude from which the smooth sheet was drafted and reproduced on cronaflex. One cronar positive and one cronar negative are provided for record and registry.

49. NOTES FOR THE HYDROGRAPHER

The following is a list of hydro station sites, identified by the field inspector, which were located during the course of compilation:

1401	Red rag on kiawe bush	60 W 2598
1402	North end of seawall	60 W 2598
1403	Water Gable red roofed house	60 W 2599

REVIEW REPORT T-11914
SHORELINE
March, 1964

62. COMPARISON WITH REGISTERED TOPOGRAPHIC SURVEYS

Comparison was made with a copy of Registered Planetable Survey No. 3269, 1:20,000 scale dated March 30, 1914.

This map supersedes the above listed survey for nautical chart construction.

63. COMPARISON WITH MAPS OF OTHER AGENCIES

Comparison was made with U.S.G.S. LAHAINA and HONOLUA, Hawaii quadrangles, 1:24,000 scales editions of 1956.

64. COMPARISON WITH CONTEMPORARY HYDROGRAPHIC SURVEYS

A comparison was made with a copy of boat sheet H-8578, 1:10,000 scale, dated 10-3-61. The shoreline of the manuscript and boat sheet are identical with the exception of the difference in scale.

65. COMPARISON WITH NAUTICAL CHARTS

A visual comparison was made with Chart 4130, 1:80,000 scale, 4th edition revised August 31, 1964. The Chart and the manuscript are in good general agreement.

66. ADEQUACY OF RESULTS AND FUTURE SURVEYS

This map complies with instructions and meets the National Standards of Map Accuracy.
