SUMMARY TO ACCOMPANY
DESCRIPTIVE REPORT T-11922

Shoreline survey T-11922 (1:5,000 scale) is one of 49 similar maps in this project. It covers a part of the coastline of Maui Island along the northeasterly shore of Maalaea Bay.

This was a stereoscopic instrument project in advance of hydrographic surveys to be made in the same area. Field operations preceding compilation included recovery and identification of horizontal control, field inspection and identification of photo-hydro signals.

The Stereoplanigraph was used for control extension. An adequate number of pass points were located for control of the models for Kelsh Plotter compilation methods. Compilation was at 1:5,000 scale and included the delineation of the mean high water line, alongshore detail, and the selection and identification of photo-hydro signals and pass points. A cronaflex copy was provided the hydrographer for preparation of the boat sheet. 1:5,000 scale ratio prints of the photography was subsequently provided for hydro-support purposes.

The manuscript is a vinylite sheet 2' 22.5" in latitude by 1' 52.5" in longitude. One cronar positive and one cronar negative are provided for record and registry.

49. NOTES TO THE HYDROGRAPHER

The following photo-hydro stations, identified by the field inspection party, were located during compilation.

2201	Red rag on bush	60 W 2336
2202	Center of concrete foundation	60 W 2336

2203	Rag on center bush of 3	60 W 2336
2204	Rag on bush	60 W 2336
2205	Red rag on bush	60 W 2336
2206	Lone tree	60 W 2336
2207	Life guard tower at park	60 W 2708
2208	Northwest of 6 piling at Kihei pier	60 W 2708
2209	Church steeple	60 W 2708

REVIEW REPORT T-11922
SHORELINE

61. GENERAL STATEMENT

See Summary accompanying Descriptive Report.

62. COMPARISON WITH REGISTERED TOPOGRAPHIC SURVEYS

Comparison was made with Registered Planetable Survey No. 2462, made in 1900 at 1:10,000 scale and approved February 1, 1901.

63. COMPARISON WITH MAPS OF OTHER AGENCIES

Comparison was made with U.S.G.S. quadrangle Maalaea, Hawaii, 1:24,000 scale, edition of 1954. The two maps are in good general agreement.

64. COMPARISON WITH CONTEMPORARY HYDROGRAPHIC SURVEYS

Comparison was made with copies of boat sheets H-8582 (SU-05-3-61), 1:5,000 scale and SU-5-4-61. The shoreline for the boat sheets was obtained from a cronaflex copy of this manuscript.

65. COMPARISON WITH NAUTICAL CHARTS

Comparison was made with nautical chart 4104, 1:10,000 scale, 4th edition, dated June 29, 1964. The Chart and the manuscript are in good agreement.

66. ADEQUACY OF RESULTS AND FUTURE SURVEYS

This survey complies with instructions and meets the National Standards of Map Accuracy.
