DEPARTMENT OF COMMERCE U. S. COAST AND GEODETIC SURVEY R. Lester. Jones Director State: T. Hawaii DESCRIPTIVE REPORT Topographic Hydrographic Hydrographia Sheet No. "D" 4355 LOCALITY West Coast of Island of Hawaii Kailua Bay

DESCRIPTIVE REPORT

To Accompany Topographic Sheet No. "D" -----Scale 1/5000

West Coast of Island of Hawaii, T. H.

Kailua Bay

Date of Instructions: November 3 1927 Chief of Party: Thos. J. Maher, H. & G. E. Topographer: F. B. Quinn, Jr. H. & G. E. From station Kahelo to the southerly limit of the sheet no triangulation stations were visible, so the traverse was carried along the shoreline and closed back along the road to 2 meters.

General Description of the Locality:- Practically the entire shore line is of a rock formation and not suitable for landing, except in Kailua Bay where a dock has been built in the sheltered northerly cove. Landings may be easily made here with small boats, except with a southwesterly wind when they are made difficult or impossible. A sand beach extends for about 50 meters to the east from the dock. A stone and concrete sea wall about 225 meters long protects the road from the dock eastward.

To the northwest of Kailua Light there is very little vegetation over an area extending nearly a mile back from the shore line. The lava rock over this area is sparsely covered with grass and weeds. Nine tenths of a mile northwest of Kailua Lighthouse there is a prominent grave of coconnut trees, about 275 meters in length and just back of the high water line. There is a small house back of the center of this grove.

Kaiwi Point when viewed from the south appears as a low rocky point stepping up in a series of flat shalves from the water line. In this vicinity the slope up to the mountainous part of the island starts about a mile back from the shore line, while further south it starts about a half mile back from the shore.

The village of Kailua extends around the north and east side of of the bay. Kailua Church is the most prominent mark in the village and shows up as a rectangular building, painted dark red. It has spire at its northerly end. The village propyer consists of about twenty five houses, a Post Office, a Court House, two churches, a Standard Oil Company supply station, a store of the American Factors Company, Ltd., three small retail stores, and a coffee-sorting mill. A paved highway leads from the village to Holualoa and the main road around the island. Three dirt roads lead to other points as shown.

From Kailua to the southward, the trees extend practically to the shore line and obscure the roads and many of the houses from view to the seaward.

Statistics:-

Statute miles of high water line	5.3
Statute miles of roads and trails	4.7
Square statute miles of area	1.0
Working days	11
Number of men in party	3

DEPARTMENT OF COMMERCE

AND REFER TO NO. 11-DRM

U. S. COAST AND GEODETIC SURVEY

WASHINGTON

July 31, 1928.

SECTION OF FIELD RECORDS

Report on Topographic Sheet No. 4355

Kailua Bay, Hawaii

Surveyed in 1928

Instructions dated November 3, 1927

Chief of Party, T. J. Maher.

Surveyed and inked by F. B. Quinn.

- 1. The records as well as the plan and character of the survey conform to the requirements of the General Instructions.
- 2. The plan and extent of the survey satisfy the specific instructions.
- 3. The triangulation datum appears to be from 10 to 25 meters different from that on T. 3425, surveyed in 1913.
- 4. The junction with T. 3425 is adequate.
- 5. The Chief of Party states that the topography back of the shoreline will be completed when the ship resumes work in the locality next season.
- 6. The character and scope of the surveying and field drafting are excellent.
- 7. Reviewed by E. P. Ellis, July, 1928.

Approved:

Chief, Section of Field Records (Charts)

Chief. Section of Field Work (H. & T.)
